Pipeline Services International (PSI) Offers ILI Technology to Onshore and Offshore Markets

Houston, Texas – Pipeline Services International (PSI) is pleased to announce that, thru a Memorandum of Understanding with a Texas based company, PSI is now able to offer ILI (Smart Pig) Technology to both the offshore and onshore markets.

Building on its strength in the pipeline commissioning, decommissioning and abandonment services market, PSI is adding ILI services to its expanding capabilities. Effectively immediately, PSI is offering Smart Pig technology from Pipeway. The Pipeway systems include capabilities in Geometry, Cleaning and Corrosion services.

“We’re very pleased to work with Pipeway.” stated Gordon Barksdale, President and CEO of PSI, “They’ve developed a comprehensive ILI capability through their development arm in Brazil that will give us a broad spectrum of capabilities in pipeline inspection, commissioning and decommissioning markets.”
